layout for review by "roadblocks\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665com". everyone else says the games go down from the start but I really enjoyed this game, although like DR2 this game was way too easy 6/10. Best for newcomers and casuals to play on than the previous titles. The time to mess around and do more things is more lenient and in your favor. To get rid of the 30 fps cap, make a text file and name it "User.ini" right in the game's directory folder. Type "gmpcr_unlock_frame_rate = True" into the User.ini file to unlock the frame rate.. I have been having a boat load of fun with my friend slaughtering zombies. My kind of zombie game right here, level up system, tons of weapons, vehicles, and some goofy fun stuff.. A real chore to play through. It lost all heart Dead Rising had on the original game.

No wonder Capcom shut this studio down. They simply didn't get it. Every new Dead Rising they would get farther away from what made the first game so special and would only introducing generic western Open world tropes. Annoying design, exhausting repetitive fetch quests everywhere... no world progression.... Just stick to the first one.
